DISCLAIMER

The information in this White Paper is subject to change or update and should not be construed as a commitment, promise or guarantee by ZEE or any other individual or organisation mentioned in this white paper relating to the future availability of services related to the use of the tokens or to their future performance or value.

INTRODUCTION

Zee World is a decentralized metaverse where anyone can earn tokens by participating in the Zee World ecosystem. Players can collect, breed and battle Zee Monsters in exciting turn based strategy game modes, own lands and create players owned assets.
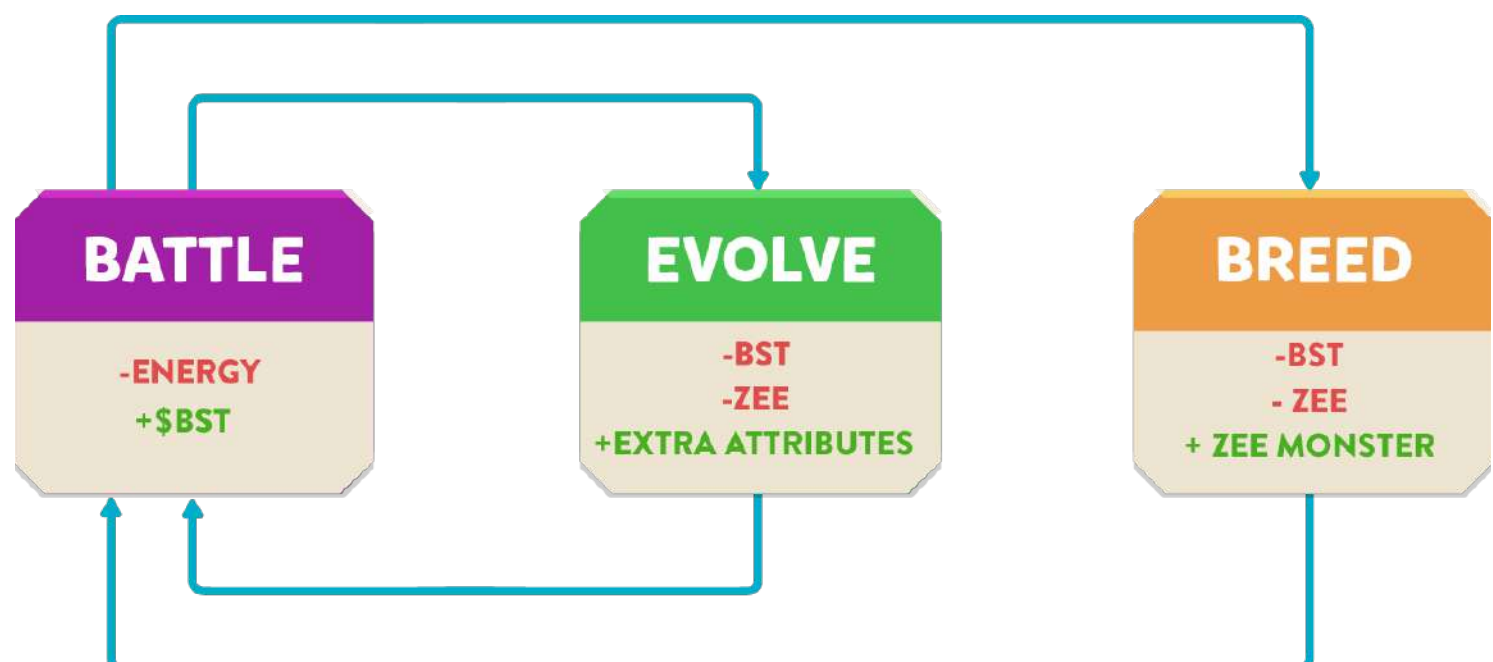

Zee World economics are driven by play-to-earn which rewards players and creators for their skill.

Players can earn by:

- Competing in game mode leaderboards and winning prizes

- Training and Evolving Zee which can be sold on the marketplace.

- Speculating on marketplace to acquire rare and unique Zee monsters

- Staking Zee Monsters to mine resources from land

- Creating Assets for ZEE Land and Selling in marketplace

+ ZEE MONSTER

BATTLE

Zee World offers a variety of game modes built around turn-based strategy mechanics. Players can battle Zee Monsters in Multiplayer PVP modes, Solo and Co-Op PVE modes.

Battling earns Experience Points (XP) and Breeding Shards ($BST).

- ◆ Breeding Shard is an ERC-20 token which is required to breed and evolve Zee Monsters.

Each battle costs Energy which regenerates every 3h and completely resets with daily server reset at UTC +0. Energy limits of how much XP and $BST can be earned per day.

ZEE MONSTERS

Zee Monsters are ERC-721 tokens which are unique and guarantee true ownership to players. Each Zee Monster has a unique class and collection of special attributes which defines Zee appearance and battle traits.

Generation I have a collection of 50 unique Zee Monsters.

Origin Zee Monsters can be obtained from Zee Eggs which will be distributed in launch event.

There will be a total of 5000 Eggs which will contain one origin Zee Monster. Origin Zee Monsters have a chance to obtain unique special attributes.

CLASSES

Zee Monsters are split into 3 classes where each class has its own strength and weakness:

- 🔥 FIRE
- 🍃 GRASS
- 💧 WATER

Each class has its own unique moves and special attacks. Zee World is a dynamic game which will evolve and add new and more exotic classes down the roadmap.

PVP

Player vs Player mode features 3v3 battle mode where players are competing in leaderboard via earning Rank Points. Each battle awards the winner with rank points which are deducted from the losing player. Rank Point system is based on ELO model which is widely used in competitive games around the world.

Earning rank points earns a place in League where each league offers higher challenge and better $BST and XP rewards.

PVP Leaderboards have seasons and at the end of every season top players are awarded ZEE Tokens.

PVE – DUNGEONS.

Dungeons offers players a variety of ways to play and earn.

Players have accessible multiple modes which can be played with different numbers of Zee Monsters.

Basic Dungeons are accessible with only 1 ZEE Monster making ZEE World easier to scale and more accessible for new players.

More advanced modes offer gameplay with 3 and 5 ZEE Monsters.

Further down the roadmap more challenging game modes featuring co-op gameplay will be added.

Each dungeon raid consumes Energy and awards players with XP and $BST if the dungeon is successfully cleared.

BREEDING

Only way to play ZEE World is by owning a ZEE Monster which can be obtained from other players. Breeding is crucial for ZEE World to scale and attract new players but at same time it allows players to breed specific ZEE Monsters with special attributes.

Breeding can happen when Zee Monsters are put into a breeding room which produces an egg.

Breeding costs $ZEE and $BST.

Each ZEE can be bred 7 times in total and every next breeding time costs more $BST.

ZEE takes 7 days to fully mature from egg to grown up ZEE.

Egg will always produce ZEE at its lowest evolution form.

EVOLUTION

Evolution system is built around philosophy to represent and hold value of work invested in each of ZEE Monster training. This ensures that strongest ZEE Monsters will be ones which have most work invested - this translates into Proof of Work.

Each ZEE can achieve a maximum level of 99 where each level takes more XP. ZEE are trained by gaining XP in PVE and PVP modes.

Once ZEE reaches the level threshold it has to be evolved into the next ZEE form which improves its attributes. Evolution requires a $ZEE and $BST token to be paid. $ZEE tokens are transferred to the DAO pool while $BST tokens are burned.

ZEE LAND

ZEE Land will add an additional layer of economics in the ZEE World metaverse. Land is a unique ERC-721 token which grants the owner true ownership of assets.

In total there will ever be 110,889 unique land plots represented in map. Each land plot consists of 8x8 (64) tiles. Each piece of land is generated and will feature unique terrain along with one of many Voxel resources.

Land gameplay has a traveling mechanic which consists of regular traveling which takes time and Fast Travel which costs $ZEE tokens. Fast Travel allows to travel instantly between player owned lands and portals around ZEE World.

Voxels are ERC-20 tokens which can be mined and used for ZEE Asset creation with Voxel Editor. Voxels can be mined with ZEE Monsters by staking them. ZEE Stake on specific land plot for mining costs $ZEE.

- Land earns passive income for Land owners and miners.

- Land will give extra bonuses in battle and allow them to train and breed more effectively.

- Lands will be completely new unique ZEE Monsters which will be introduced in game.

- Through various events Land owners will be able to find $ZEE tokens on their land along with different rewards.

All Lands are public and can be visited and mined by any player.

Multiple Land plots can be combined in land estates which will allow to build more complex and advanced experiences.

Ultimately Land will allow players to create minigames and rich experiences that can be monetized by player driven economics.

VOXEL CREATION TOOL

ZEE Land brings lots of opportunities for creators to create and earn, opens possibilities for collaborations and adds the next layer of ZEE metaverse.

ZEE creation tool allows players and artists to create ZEE Assets for ZEE Land which inf future can animated and programmable. ZEE Assets are ERC-1155 tokens which can be minted by creators, published and sold to the ZEE marketplace.

ZEE MARKETPLACE

Zee Marketplace is the central place for trade in the ZEE World metaverse. Players can use the marketplace to buy and sell ZEE Monsters, Land and Assets. Each transaction in the Marketplace is subject to 5% tax which is transferred to the DAO fund.

ZEE TOKEN UTILITY

$ZEE Token is ERC-20 tokens with a total supply of 2,700,000,000.

$ZEE token is at the center of the ZEE universe and is required to interact with ZEE economics.

$ZEE token is used to:

- Breed ZEE

- Evolve ZEE

- Mine Land

- Fast Travel in ZEE World

- Vote on community pools

- Mint ZEE Assets

- Sell and Buy on ZEE Marketplace

TOKENOMICS

5% Tax is charged for every transaction in the marketplace which is transferred to the DAO pool.

Platform fees are transferred to DAO pool:

- Breeding

- Evolution

- Fast Travel

- Asset Meaning

- Land Mining

TOKENOMICS COMING SOON
